EXPERTISE

PROJECT MANAGEMENT

Product Lifecycle Management
Solution Design and Implementation
Agile Delivery - DevOps, DataOps
Scrum Framework
Change Management

DOMAIN

Pharmaceutical R and D Processes
Clinical Data Standards - SDTM, ADaM,
MedDRA, OMOP
GxP Software Development
Evidence Planning for Clinical Trials
Agentic AI in Drug Development

SKILLS

SOFTWARE/PRODUCTS

MS Office • R • SQL • Azure • Databricks
• Palantir Foundry • Veeva Suite

LANGUAGES

Native Proficiency:
English • Hindi

EXPERIENCE

NOVO NORDISK A/S | SENIOR DIRECTOR, FOUNDATA

March 2025 - Present | Copenhagen, Denmark

- Leading a cross-functional global team to build an industry-leading tool that incorporates harmonized multi-modal data (clinical trials, omics, RWD) and agentic AI to create insights for scientific decision-making
- Delivered scientific use-cases related to indication expansion, speed-to-market, and productivity gains for biostatisticians valued at 36M USD.
- Presented insights and vision to executive management and board of directors of Novo Nordisk A/S as part of CEOs AI agenda
- Represented Novo Nordisk at external congresses to showcase the innovative work accomplished by the team

NOVO NORDISK A/S | DATA PRODUCTS LEAD, FOUNDATA

February 2024 - February 2025 | Copenhagen, Denmark

- Led a global cross-functional Data Engineering and Data Products team to build data pipelines to ingest, harmonize, and provide compliant access to human health data products to statisticians for analytics
- Developed vision, strategy and roadmap to integrate multiple modalities of data including historical clinical trials, Real World and Omics data
- Responsible for architecting, designing, maintaining and optimizing complex data pipelines to support data exploration, operational workflows as well as advanced analytics
- Developed processes and tools to capture full lineage of the data and guarantee data quality and integrity

DELOITTE | MANAGER, DATA42 PROJECT

September 2021 - February 2023 | Various Locations (USA, EU, and UK)

- As part of Deloitte consulting team accountable for designing, building and running scalable data product solutions on Palantir Foundry to democratize data access across data42 external customers
- Defined and tracked key measurements for data systems and product success while overseeing the project planning, delivery, and ongoing support for data engineering and product development

LEADERSHIP EXPERIENCE

Novo Nordisk A/S | Senior Director

- Provided coaching and talent development for employees supporting career progression, salary reviews, and 360-degree feedback with the ability to influence stakeholders and drive organizational change within complex and ambiguous environments
- Influenced stakeholders in complex and ambiguous environments driving organisational change with support from senior executives in Development, Research, and IT organisation

Deloitte | People Manager

- Provided guidance and support for the career development and performance reviews of over 10 direct reports across the United States, the United Kingdom, and India.

AWARDS
